SAN FRANCISCO AND PACIFIC GLASS WORKS.

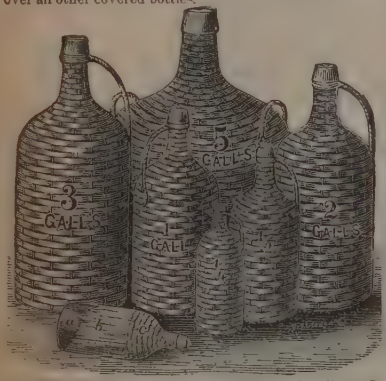
ESTABLISHED 1865.

C. NEWMAN, - - - - - - President

Office and Works, KING STREET, near foot of Fourth, San Francisco.

Manufacturers of all kinds of FLINT, GREEN and BLACK GLASSWARE. All kinds of Plain and lettered bottles furnished at short notice.

C. NEWMAN'S IMPROVED ELASTIC DEMIJOHN, (Patented January 26th, 1875.) By referring to the engraving, in the foreground will be seen a bottle partially covered; *a* represents the glass, *b* the tule reed, and *c* the wicker-work. It will be seen that the bottle is first covered with the tule reed—a soft elastic substance—forming a cushion, on which the rattan is woven. By this means the bottle is doubly protected, and made doubly valuable from its immunity from breakage. Its advantages are so many and obvious, that it needs no argument to prove its merits. Those who use demijohns will see at once the superiority it possesses over all other covered bottles.



THE GROOVE RING FRUIT JAR.

This Jar has been extensively used in the East for several years, and from its simplicity of construction, cheapness and reliability, has become one of the most popular jars now in use.

NEWMAN'S
IMPROVED BOX DEMIJOHN.

(Patented March 30th, 1875.)

These boxed demijohns are the simplest, best and cheapest in the market. They are neat in appearance, compact, and securely packed, and are always ready for shipment by any conveyance, without danger of breakage. They will save 50 per cent. in freight. The demijohn in the box being glass, cannot destroy the flavor of the liquid, and consequently should take the place of wooden kegs for all purposes.

DIRECTIONS FOR KEY-HOLDERS.—Upon the discovery of a fire near your signal-box, turn the crank steadily to the right, forty times, then wait a few moments, and if you hear no alarm on the large bells, turn as before. If you still hear no alarm, go to the next box and give the alarm from that. Never open the box or touch the crank except in case of fire. Never signal for a fire seen at a distance. Do not give an alarm for a burning chimney. Be sure your box is locked before leaving it. Upon a second alarm being struck for the same fire it will be considered a general alarm. Second alarms will be turned in only by order of the Chief Engineer or his Assistants.

Keys of the signal boxes are deposited in the vicinity of each box, at such places as are indicated upon cards placed thereon.

The signal boxes in use consist of eighty-two crank boxes and seventy-seven automatic boxes. An alarm from an automatic box is given by pulling down the hook once and letting go, unerring mechanism doing the rest.

Complaints concerning the working of the Fire Alarm Telegraph, irregular striking of the bells and gongs, broken wires, etc., should in all cases be made at the Fire Alarm Office, Brenham Place.

In case of tumult or riot, whereby the services of the Police force are required, an alarm will be given, consisting of ten strokes upon the bells and gongs, repeated five times, which will be a signal for the Police to assemble at the old City Hall. This alarm will be given only by order of the Mayor or Chief of Police.

The telegraph apparatus consists of about one hundred and twenty miles of wire, divided into nineteen circuits, of which twelve are signal circuits, or circuits running to the signal boxes. Alarm gongs are located in the different Engine, Hook and Ladder, and Hose houses, each connected with the Central Office by the fire alarm circuits and eight alarm bells for striking the alarm box, located as follows: One on the Hall of the Exempt Fire Co., one on the Engine House on Sixth street, one on the Engine House on Stockton street, one on the Engine House on Second street, one on the Engine House on California street, one on the Engine House on Sixteenth street, one on the Engine House on Bryant street, and one on the Engine House on Pacific street. The bells and gongs are each struck at the same time by electrical machinery.

PUBLIC SCHOOLS.

The free public schools of San Francisco are the pride of the citizens, and their efficiency attract many families to reside in the city in order that their children may reap the advantages they offer. The first English school was established in April, 1847, with about thirty pupils, taught by a Mr. Marston, who is, therefore, the pioneer teacher of the city. Late in the same year the citizens organized a public school, and erected a building on the southwest corner of the Plaza, now Portsmouth Square. In April, 1849, the Common Council established a public school, and John C. Pelton and wife were employed as teachers, and this was the beginning of the system which has continued to the present time. During the fiscal year of 1879–1880 there were 61 schools, employing 686 teachers, and having an enrolled attendance of 38,320 pupils, of whom 20,019 were boys, and 18,301 girls. By the report of the School Census Marshal, June 30, 1880, the number of youth in the city under seventeen years of age is 84,206, being a decrease for the year of 3,898. The number between five and seventeen who are entitled to draw school money is 58,492, a decrease of 3,613 for the year. The number attending private and church schools only during the year (not including Chinese) was 6,652, a decrease during the year of 572. The number between five and seventeen years of years of age (not including Chinese) who have not attended school at any time during the year was 14,828, a decrease from the preceding year of 4,561. The last exhibit—of children not attending any school—is worthy of note. The enrollment at the different schools was as follows: High schools—Boys, 353; girls, 379; total, 1,232. Grammar schools, including some Primary grades—Boys, 6,484; girls, 7,018; total, 13,502. Primary schools, including some Grammar grades—Boys, 11,276; girls, 10,153; total, 21,429. Evening schools—Boys, 1,906; girls, 251; total, 2,157. The financial condition of the Department is represented as follows: The city tax for school purposes in the year 1879–80 was 20.46 cents on each $100. The total income, including cash on hand at the beginning of the year was $967,782, an increase over last year of $111,624 48. The expenditures were $875,448 47; less than the previous year by $1,040 67. Cost of instruction per pupil, based on the enrollment, and excluding expenditures for buildings, $20 28. Cost of instruction per pupil, based on average daily attendance, and including expenditures for buildings, $28 74. The amount paid teachers' salaries, $639,259 04; a decrease from the preceding year of $50,226 84. The estimated value of school property is: School sites, $1,930,000; buildings, $920,000; school furniture, $185,000; libraries, $13,000; school apparatus, $25,000. Total, $3,073,000. The Superintendent, in his Annual Report, calls attention to the unjust discrimination of the Board of Education in reducing the salaries, whereby the Primary and lower Grammar grades will suffer the loss of most of their best teachers; the basis of salaries having been made on the erroneous idea that the higher the grade taught the higher order of talent was necessary in the teacher. The total amount paid for teachers salaries during the past fiscal year was an average for each enrolled pupil of $16 68. The amount paid as salaries of teachers at the High Schools was $71,220, or an average charge to the 1,232 enrolled pupils of $57 89 each. The average cost for each pupil in the primary schools, on account of salaries paid primary teachers, is about $15 50 per annum. In 1855 California had only 227 schools, with an attendance of 13,000, and 26,077 census children, in 1880 it had 2,803 schools, with an average daily attendance of 100,966, and 215,978 census children, a decrease of 4,229 from the census of 1879. In 1855 teachers salaries amounted to $181,906; in 1880 the amount paid was $2,207,043 85. Up to the present time the people of California have devoted to the cause of education, for public schools, $36,608,391 26. (The total expense of the School Department of San Francisco has been $11,951,318 92.) Percentage of census children enrolled in public schools, 68.93; percentage in private schools, 6.92; percentage attending no school, 24.17; per cent. of children of native born parents, 46.84; per cent. of children who had one foreign born parent, 14.49; per cent. of children who are of foreign parents, 38.67; school districts, 2,063; number of male teachers, 1,208; number of female teachers, 2,387; average monthly salaries paid male teachers, $80.26; average paid female teachers, $64 73; new school houses erected, 73; institutes held, 31; cost of institutes, $2,179 51. Total receipts of the School Department from all sources: State and County apportionments, city and district taxes, etc., for 1879, $3,6537,98 96; for 1880, $3,573,108 32; State apportionment per census child, 1879, $6 60; for 1880, $6 94; county apportionments per census child, 1879, $3 59; for 1880, $3 30; total receipts of all kinds per census child, 1879, $16 84; 1880, $16 54. Total expenditures of the School Department, including salaries, rents, fuel, libraries, apparatus, sites, buildings, furniture, etc., 1879, $3,010,907 13; 1880, $2,864,571 42. Cost of tuition per pupil enrolled in public schools, 1880, $13 91. Total current expense per pupil enrolled, 1880, $16 84. Total current expense per pupil in daily attendance, 1880, $26 49. Valuation of school property, 1880, $6,914,303. By the foregoing it will be seen that San Francisco has about 41 per cent. of the enrolled pupils; pays about 26 per cent. of the teachers salaries; has about 27 per cent. of the children entitled to school moneys, and owns about 45 per cent. of the school property of the State. Of the State University the Superintendent says: "It is a subject for congratulation that the new Constitution has placed the University upon a permanent basis, and has removed it beyond the control of political or sectarian influence. Considering the youth of the State, and, by comparison with other States of the Union, it is quite safe to say that the status of the University, as well as its curriculum and equipment, are far in advance of any of the younger States. During the last two years, in the University proper, there has been a falling off in the number of students; this is owing in part to the depression in business; partly to more rigid examination upon or preceding admission, and partly, no doubt, to diminished enthusiasm incidental to a less vigorous and energetic administration than before of the educational affairs of the institution. With an improvement in this latter respect larger numbers will be attracted to it than formerly, and it will fill the measure of anticipation of its special friends and the reasonable demands of the community. The Regents have under consideration several propositions looking to the increased efficiency of the University in its various departments." Of the Normal School the Superintendent says: "The State Normal School is doing very efficient work and is greatly improving the schools of the State. The graduates, and, even many of the undergraduates, are giving us excellent teachers. The destruction of the building with its excellent equipments, while it has subjected the school to great inconvence, does not seem to have restricted its usefulness. On the night of February 10th the building was burned; on the morning of the 11th the Board of Education of San José generously tendered the State the free use of the High School building for the Normal School until the completion of the new building. The attendance has been between three hundred and three hundred and fifty, exclusive of the training school. The new building in process of erection will be larger and far more commodious than the old, for the Board of Trustees have wisely profited by the experience of the past."

CITY NORMAL SCHOOL.—The Normal Class of this city (October 1, 1880) numbers 163, all graduates.

KINDERGARTENS.—The Deputy Superintendent recommends the establishment of Kindergartens "all over the city." "The excellent work done in that direction by the Silver Street Kindergarten, under the skillful management of Miss Catherine Smith, has shown the possibilities of the system, and I believe that to-day the most valuable and effective change that can be made in our School Department would be the establishment of at least twenty similar schools under trained and competent teachers."

COSMOPOLITAN SCHOOLS.—Professor Herbst reports there are three Grammar and three Primary Schools, in which instruction is given in French to 438 pupils, and in German to 2,065 pupils, besides the English course prescribed for all the Common Schools of the city. There are eight special teachers of German and French, whose aggregate salary amounts to $6,528. There are 67 classes in which German or French is taught; 44 of these are taught by special

EVENING SCHOOLS.—Mr. Charles H. Ham, Principal of Evening Schools, reports the number of pupils enrolled during year ending December 31, 1880, at 3,400. Average daily attendance, 325; average number belonging to Evening Schools, 1,000. The terms and holidays are the same as those of the day schools. The studies are reading, arithmetic, penmanship and composition or letter-writing, bookkeeping, industrial drawing, mathematics, etc. The study of Spanish has been added during the present year, and at this time there are four classes of sixty pupils each, who receive lessons alternate evenings, from two teachers appointed for that purpose. The total number of classes now in the schools are twenty-eight. The highest number during the year having been thirty. The Evening Schools are held at the Lincoln, Mission and Washington Schools.

CONSTITUTIONAL CHANGES.—The new Constitution brings numerous changes in the Public School system. It recognizes evening, technical and normal schools as properly belonging to the Common School system, and makes high schools and cosmopolitan schools practically independent of the State, but dependent upon the city for their establishment and support. The Board of Education (Section 7) will have control of the schools, selecting text-books, direct the examination of teachers, and, unless done by the Legislature, will prescribe the course of studies, which may include all the studies of the high schools. The changes in the examination of teachers and the selection of text-books are important.

SCHOOL HOUSES.—The following named school houses were completed during the year: Grant Primary—cost, $27,426 24; Pine and Scott Street—cost, $20,779; Buena Vista—cost, $8,128 80; West Mission Street—cost, $18,385 75. The total number of buildings used by the Department is 76, of which 63 are owned by the city and 10 rented. Of those owned by the Department, 8 are of brick and 55 are of wood, The amount paid for rented rooms was $8,773 70.

Colleges and Private Schools.

Notwithstanding the excellence of the free public schools of the city and State, their exemption from direct cost to the pupil or parent, and the great interest taken in them by the public as the nurse and strength of our free institutions, colleges and private schools of great wealth, popularity and importance rise and prosper. That such institutions exist, show the great interest taken in educational matters. The public and private systems are rivals, each stimulating the other, and setting examples of enterprise, management, salaries, edifices, progress and standard of scholarships. There are in San Francisco about one hundred private schools, in which term are included the select school of a few pupils, the seminaries, commercial schools, academies, convent schools, and colleges, with their thousand students. The Census Marshal reported the number of youth attending private and church schools in this city in June, 1880 (not including Chinese) at 6,652. Many of the private schools having edifices of great capacity, cost and grand architectural appearance.

SACRED HEART COLLEGE.—The Sacred Heart College, located on the corner of Eddy and Larkin streets, is a wooden structure of three high stories and basement, and covering a large portion of the block. This is conducted by the "Christian Brothers," under the direction of Brother Genebern. The number of students is 700. The object of this institution is to give a thoroughly Christian and secular education, embracing the classical, scientific and commercial courses.

SACRED HEART PRESENTATION CONVENT.—The Sacred Heart Presentation Convent is a fine brick building of ample proportions, located at the corner of Taylor and Ellis streets. This is a chartered college by act of the Legislature and empowered to confer graduating certificates. The school is free of charge to all denominations. It was opened on the 24th of May, 1869, and the number of pupils increasing, made it necessary to enlarge the building, and in 1870 the portion fronting on Ellis street was added. Later on a wing within the enclosure was built, to afford more ample facilities for the improvement of pupils in music, needlework, painting, drawing, etc. The institution contains 600 pupils, and is under the charge of Mother Mary Bernard Comerford.

ST. IGNATIUS COLLEGE.—The St. Ignatius College located on the west side of Van Ness avenue, and extending from Hayes to Grove streets, ranks among the oldest and most prominent of the colleges of San Francisco, opening for the reception of students on October 15, 1855. It was incorporated under the law of the State April 30, 1859, and empowered to confer degrees and academical honors. The number of students usually in attendance is upwards of 700, with a staff of 24 professors and teachers. The college edifice consists of two main buildings, connected by spacious corridors. On the corner of Grove and Van Ness avenue, the first two stories are used for class and lecture-rooms, and the two upper floors as an exhibition hall. The college will accommodate twelve hundred students. The church and college combined front two hundred and ninety feet on Hayes street, and runs through to Grove street, a depth of two hundred and seventy-five feet. It is one of the largest and most magnificent edifices the city contains.

ST. MARY'S COLLEGE.—The St. Mary's College located on the east side of Mission street, or County Road, about four miles from the City Hall, is represented as in a flourishing condition. It is one of the oldest colleges on the coast, and has been under the management of the Christian Brothers since 1863. During the last year there were about 250 students in attendance.

UNIVERSITY (CITY) COLLEGE.—The University (City) College, Rev. James Matthews, DD., principal, is located on the south side of Haight street, between Laguna and Octavia. It was founded in 1859. The course of study at present prescribed, extends but little further than is needful to fit pupils for entering with advantage a college or university course. The

course of study will be extended as rapidly as the students can be prepared for it, and the trustees can provide the means of maintaining a competent Faculty.

MEDICAL COLLEGE OF THE PACIFIC.—The Medical College of the Pacific is located on Haight street, between Laguna and Octavia. It is the Medical Department of the University (City) College. The institution was organized in 1858 as the Medical Department of the University of the Pacific, and was transferred to its present connection in 1870. Lectures are given for a term of six months, during each year, at the Hall of Academy of Sciences, southwest corner of California and Dupont streets.

THE HASTINGS COLLEGE OF THE LAW.—This institution, which is in connection with and under the auspices of the University of California, owes its formation to the munificence of Judge S. C. Hastings, who endowed it with a free gift of $100,000. The act of the Legislature establishing the College authorizes the Board of Supervisors of San Francisco to provide suitable rooms in this city, and makes it mandatory upon the Law Library Association to extend its benefits to the students of the College. It is now located in the building of the Society of California Pioneers, 808 Montgomery street. The number of students is 200. The Faculty are: John Le Conte, M. D., L. L. D., President; John Norton Pomeroy, L. L. D., Professor of Municipal Law; Oliver P. Evans, Adjutant Professor of Municipal Law; William H. Platt, D. D., L. L. The course of studies are the same as those pursued in the most prominent colleges of the East and Europe. SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventually reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

RATES OF POSTAGE ON DOMESTIC MAIL MATTER.

FIRST-CLASS MATTER.—Matter which is in writing, or other matter containing a written inscription in the nature of personal correspondence, and matter which is sealed against inspection, are alone by their nature and the intent of the law first-class matter, and subject to the postage rate of three cents for each half ounce or fraction thereof.

On local or drop letters at offices where free delivery by carriers is established, two cents for each half ounce or fraction thereof.

On local or drop letters, at offices where free delivery by carriers is not established, one cent for each half ounce or fraction thereof.

SECOND-CLASS MATTER.—This class includes all newspapers, periodicals, or matter exclusively in print, and regularly issued at stated periods from a known office of publication or news agency, except regular publications designed primarily for advertising purposes, or for free circulation, or for circulation at nominal rates. Second-class matter can only be mailed by publishers or newsdealers. Postage, two cents a pound or fraction thereof. Weight of packages not limited.

THIRD-CLASS MATTER.—This class embraces books (printed and blank), transient newspapers, and periodicals, circulars, and other matter wholly in print, proof-sheets and corrected proof-sheets and manuscript copy accompanying the same, prices current with prices filled out in writing, printed commercial papers filled out in writing (provided such writing is not in the nature of personal correspondence, and the papers are not the expression of a monetary value), such as papers of legal procedure, unexecuted deeds

of all kinds, way-bills, invoices, unexecuted insurance policies and the various documents of insurance companies, hand-bills, posters, chromo-lithographs, engravings, envelopes with printing thereon, heliotypes, lithographs, photographic and stereoscopic views with title written thereon, printed blanks, printed cards; and postage shall be paid thereon at the rate of one cent for each two ounces or fractional part thereof.

FOURTH-CLASS MATTER.—This class embraces blank cards, card-board and other flexible material, flexible patterns, letter envelopes and letter paper without printing thereon, merchandise, models, ornamented paper, sample cards, samples of ores, metals, minerals, seeds, cuttings, bulbs, roots, scions, drawings, plans, designs, original paintings in oil or water colors; and any other matter not included in the first, second or third classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service. Postage rate thereon, one cent for each ounce or fractional part thereof.

REGISTRATION OF DOMESTIC LETTERS.

Letters may be registered on payment of a fee of ten cents in addition to the regular letter rate of postage, but the Government takes no responsibility for safe carriage, or compensation in case of loss. Postmasters are required to register all letters properly presented for that purpose, but no letters are to be registered on Sunday.

Third and fourth class matter may also be registered, but must be unsealed, fully prepaid at the proper rates, and conform to all requirements.

POSTAL CARDS.

The object of the postal card is to facilitate letter correspondence, and provide for the transmission, through the mails, at a reduced rate of postage, of short communications, either printed or written in pencil or ink. They may, therefore, be used for orders, invitations, notices, receipts, acknowledgments, price lists, and other requirements of business and social life; and the matter desired to be conveyed may be either in writing or in print, or partially in both. The postage of one cent is paid by the stamp impressed on these cards to any office in the United States, and no further payment is required. No card is a "postal card" except such as are issued by the Post-Office Department. According to the provisions of the Treaty of Berne, postal cards may be sent to the following named countries (or others included in the General Postal Union), on the prepayment of postage two cents, viz: Africa (British; French, and Spanish Possessions) Algeria, Argentine Confederation, Austria, Azore, and Bahama Islands, Belgium, Borneo, Brazil, British Burmah, British Honduras, British India, Buenos Ayres, Ceylon, China (port of Hong Kong), Denmark, Ecuador, Egypt, France, and French Possessions, Greece, Italy, Jamaica, Japan, Mexico, Montenegro, Moldavia, Netherlands and Dutch Possessions, Norway, Persia, Peru, Portugal, and Portuguese Possessions, Russia, Servia, Spain, Sweden, Switzerland, Turkey, Uruguay, Venezuela, and Wallachia; also to Newfoundland, on prepayment of two cents, and to Canada same as domestic.

POSTAL MONEY ORDER SYSTEM.

The money order system is intended to promote public convenience, and to secure safety in the transfer, through the mails, of small sums of money. All principal Post Offices receive money and issue drafts for the same upon other Post Offices, subject to the following charges and regulations:

DOMESTIC RATES.—On orders not exceeding $15, 10 cents; over $15 and not exceeding $30, 15 cents; over $30 and not exceeding $40, 20 cents; over $40 and not exceeding $50, 25 cents.

ALGERIAN, CANADIAN, FRENCH, GERMAN, ITALIAN, AND SWISS RATES.—On orders not exceeding $10, 15 cents; over $10 and not exceeding $20, 30 cents; over $20 and not exceeding $30, 45 cents; over $30 and not exceeding $40, 80 cents; over $40 and not exceeding $50, $1.

BRITISH RATES.—On orders not exceeding $10, 25 cents; over $10 and not exceeding $20, 50 cents; over $20 and not exceeding $30, 70 cents; over $30 and not exceeding $40, 85 cents; over $40 and not exceeding $50, $1.

A money order may be issued for any amount from one cent up to fifty dollars inclusive, but fractional parts of a cent must not be introduced into any money order or account. When a larger sum than fifty dollars is required, additional orders to make it up must be obtained. Not more than three orders of fifty dollars each can be remitted by one person each day to one payee.

An order is only payable at the office upon which it is drawn. The order should be collected within one year from its date. After once paying an order by whomsoever presented, provided the required information has been given by the party who presented it, the Department will not hold itself liable to any further claim, but in case of improper payment of an order, will endeavor to recover the amount for the owner.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are sixty districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office, upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post-Office.

Meteorological Observations.

(Made at San Francisco, from Nov., 1850, to Jan., 1881, by Henry Gibbons, Sen., M. D.)

In the following tables the reader will find, in a condensed form, the result of thirty years' diligent observation of the climate of San Francisco, with more particular reference to rain.

Rain has fallen in every month of the year. In July it has rained only in two years; August has furnished rain in five years; June in eight years; September in fourteen years; October in twenty-one years. No account is made of a mere sprinkle, nor of the deposit of summer mist. The greatest quantity of mist which ever falls in twenty-four hours is about three-hundredths of an inch. But this quantity is very rare. Near the ocean the mist is much more copious.

The driest season was 1850–51, which gave only seven inches. Next to that was 1863–64, with eight and one-half inches. The winter of 1867–68 gave the most rain—forty inchee. The average is very nearly twenty-two inches.

The earliest setting in of the rainy season was October 8th; the latest, January 12th. An early beginning and an abundant supply are apt to go together, but there is no rule in this respect—the latest beginnings have been followed by an average supply.

The average date of the beginning of the rainy season is November 28th; of the termination, April 10th. March is as certain to bring rain in liberal amount as any other month. In one year out of every three there is no rain of importance after March. The last showers of the season come, with remarkable uniformity, about the third week of May.

The middle of January is the average dividing point of the rainy season. The mean quantity before January 1st is about equal to the mean quantity after January 31st.

December gives the greatest average quantity; January is not far behind; February, March and November come next, and are nearly alike; then April, May and October, in the order named. The mean annual supply for thirty years is 22 inches.

The greatest amount of rain in any one month was in January, 1862, when there fell the enormous quantity of eighteen inches.

The most extraordinary summer rain was in June, 1875, when 1.11 inches fell during a southerly storm which lasted several days. That this was an anomaly is made apparent by the fact that in the three summer months during thirty years the whole quantity of rain, collectively, deducting this, was less than two inches.

It is worthy of note that in the driest seasons there has been an abundant supply for agricultural purposes, had it been distributed evenly. Three inches in December, with one inch in each of the four following months, would produce full crops.

The rain table of San Francisco may be made the basis for estimating the fall in other parts of the State. The mountains of the north have from two to three times as much, and the southern section of the State half as much, or even much less in some localities. The valley of the Sacramento has nearly the same quantity as San Francisco; that of the San Joaquin only half as much in the northern section, and still less in the southern.

By reference to the tables showing the extremes of heat and cold, it appears that the coldest weather was in January, 1854, when the mercury fell to 25°. At that time the mud in the streets was frozen solid, and the shallow ponds were covered with ice strong enough for boys to skate on. But such weather is extremely rare, though since that time the ground has been frozen several times so as not to thaw fully in the shade for several days. The coldest noonday embraced in the record was 37°. Often the entire winter passes by without bringing the thermometer so low as the freezing point. In 1853, it fell at no time below 40°.

The extreme of heat was on the 10th and 11th of September, 1852, when the thermometer reached 97° and 98° on the two days, respectively. This, however, was entirely exceptional, and might not occur again in half a century; the air was dry as a sirocco, and caused the woodwork of houses to crackle audibly, and the plaster to break on the wooden walls.

With the exception just noted, the hottest day was June 11th, 1877—94°. Next came July 6th, 1867, and June 12th, 1876—93°. The temperature reached 91° on six days, viz: once in October, 1864, once in September, 1865, once in June, 1872, once in June, 1877, and twice in September, 1877. In July, 1865, it was 90°. It appears, therefore, that there were but twelve days in thirty years, when the temperature reached 90°.

The table of mean temperature shows that our summer does not come till the summer months have passed by. September is the warmest month in the the year, and October next; then comes August; July, hottest month elsewhere is the fourth here, or links with June; next come April and May; then March and November; then February, and, finally, January and December, which are the only winter months, if indeed we have any weather that deserves the name of winter.

Twice the ground has been covered with snow. On the twenty-ninth of December, 1856, it snowed very fast for several hours, and two or three inches gathered, but it melted before night. On the twelfth of January, 1868, it snowed fast before day, so that two inches collected. But it disappeared before sunrise, so that few persons enjoyed the spectacle.

The extraordinary evenness of the climate depends on the adjacent ocean, the water of which, flowing in a current from the north, is always at a temperature of about 54°, summer and winter. The seabreeze of summer, which chills the air at noonday, leaves no place for hot nights. There is not, on an average, one night in the year when it is warm enough to sit out of doors at midnight with comfort.

The Order of Chosen Friends is a secret benevolent society. Not secret for the protection of wrong doing, as is believed by many, but secret only in the sense of being private, having signs and passwords, that its membership may be better protected in their work of giving aid to the distressed and protection to the weak. To unite in bonds of fraternity, aid and protection all acceptable white persons of good character, steady habits, sound bodily health and reputable calling. To improve the condition of its membership, morally, socially and materially, by establishing a fund from which a weekly benefit may be paid to sick and distressed members, and upon satisfactory evidence of the death of a member paying from an endowment death fund of from one to three thousand dollars.

This society is not intended as a rival of, but a worker with, other benevolent orders in the great work of relieving and elevating the condition of mankind.

Gillespie, Mrs. Taylor, Mrs Joice, Mrs. A. Dubbs, and Mrs. O. C. Wheeler, Managers; Charles Gilmore, D. L. Ross, and S. Franklin, Trustees.

It originally occupied the building on the corner of Second and Folsom streets, owned by Gen. H. W. Halleck, whence they removed the children in March, 1864, to the present building, corner of Laguna and Haight streets, just then completed, at a cost of $30,000. This house, built of stone and brick, expressly for the purpose, is highly creditable to the institution, as one of the noblest monuments of San Francisco benevolence. During the years 1862-3, a large and convenient addition was made to the present building, at an expense of $30,000, which, together with the main building, will accommodate two hundred and fifty children. As a complement to the Sansome Hook and Ladder Co., who, upon disbanding, donated to the asylum the building and lot owned by them, the new addition is called the "Sansome Wing."

During the year 1879 the upper story of the building was fitted up, and for the first time in its history the entire capacity of the asylum has been made available. The present number of children in the asylum is two hundred and twenty-four.

Officers.—Mrs. Dr. Charles Keeney, President; Mrs. H. B. Tichenor, Vice-President; Mrs. Henry Haight, Treasurer; Mrs. F. MacCrellish, Secretary; Mrs. D. L. Waterman, Matron; Mrs. M. L. Batturs, Assistant Matron; Miss Wells and Miss J. W. Corey, Teachers; John Nightingale, Physician.

ORPHAN ASYLUM (Roman Catholic).—Organized March 23, 1851. In July of the same year the erection of a wooden edifice was commenced, and completed the following September. On August 18, 1852, the asylum was taken in charge by the Sisters of Charity. In 1854 a capacious brick building was erected on Market street, near Third, at a cost of $45,000. In 1864 an additional brick edifice was erected for a school, which was attended by several hundred day scholars.

In 1862 a farm of fifty-three acres, near Bay View, South San Francisco, was purchased, where there has been established a branch institution for very young children, called the St. Joseph's Infant Asylum. On this same tract of land a large and commodious wooden edifice, with all the modern conveniences, was erected in 1872. The present building is beautifully located on a hill, commanding an extensive view of the surrounding country. It covers an area of two hundred and four by two hundred and eighty-two feet, including an open centre court, measuring eighty by one hundred and forty-four feet. SAN FRANCISCO FEMALE HOSPITAL.—Location, 806 Stockton street. This hospital was opened for the reception of patients on the first day of April, 1868. The object of the institution is the care of poor, sick women. There is no rule as to the nativity, religion, or social condition. It is a charity in the broadest sense of the term. Any woman who is poor and sick is entitled to share its benefits. It is a general hospital for all diseases, and for lying-in. During the twelve years it has been open there have been nearly one thousand births. Of the whole number of births over fifty per cent. have been illegitimate, showing conclusively the need of such an institution, as, if it were not for this hospital, the probabilities are that the greater number would have shared the fate of so many thousands of innocents murdered in their mothers' womb. There have been besides a large number of patients admitted for general disease. There have also been a very large number of outside patients treated, the physician and surgeon being in attendance every morning from ten to eleven o'clock to treat any poor persons who may come. It was supported by voluntary contributions until 1870, when the State appropriated $5,000 a year for its support. In 1879 the appropriation was reduced to $3,000. During the past year this appropriation has been withdrawn entirely, consequently fewer patients will be admitted free.

During the past year there has been organized, in connection with the Hospital, a Foundling Asylum, to be used exclusively for children born in the Hospital, where they will be kept, and not as heretofore sent away to other hospitals. The Hospital is under the care of Dr. O. B. Hutchins.

Officers.—Mrs. A. Y. Trask, President; Mrs. M. Hecht, Vice-President; Mrs. G. Low Smith, Secretary; Mrs. E. B. Pond, Treasurer; Mrs. M. E. Dayton, Matron.

SAN FRANCISCO LYING-IN HOSPITAL AND FOUNDLING ASYLUM.—Incorporated April, 1868, for the care, protection, and proper treatment of unprotected single women, with their offspring, together with all other children that may be abandoned in infancy by outside parties, said children being considered foundlings.

The Trustees design to make this institution respectable in the highest degree. Efficient and available to patients from every county in the State, regardless of religious belief sectarianism or nationality. No one is required to pay more than her average cost to the hospital. It is expected that the institution will be supported by receipts from patients, donations and contributions from different sources, appropriations by the City and State Governments, and by bequests, legacies, etc. This is a special lying-in hospital, and for the specialties for which it was organized affords facilities not to be found elsewhere on this coast. No cases of disease are admitted for treatment. It is therefore expected to be kept free from erysipelas and other contagious diseases that are the bane of lying-in wards connected with general hospitals. Its locality, facing Jefferson Square, is not surpassed for salubrity by any other in the city. The building is thoroughly ventilated, and affords all the comforts of a private home free from intrusion. Competent nurses are in attendance day and night. Applicants must furnish satisfactory proof of having heretofore sustained a good moral character.

For consultation the attending physician will be found at the Hospital, 913 Golden Gate Avenue, from twelve o'clock M. until one o'clock P. M., daily (Sundays excepted), or at his residence, No. 20 Twelfth street at nine o'clock A. M. and one and five o'clock P. M. Letters of inquiry should be addressed to Benjamin F. Hardy, M. D., No. 20 Twelfth street, San Francisco, inclosing an addressed and stamped envelope for a prompt reply.

PUBLIC STREETS, AVENUES, SQUARES, PLACES,

OF THE CONSOLIDATED

CITY OF SAN FRANCISCO,

IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872.

EXPLANATORY.—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this Order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clementina, Ecker, Jessie, Minna, Natoma, Ritch, Shipley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Forty-ninth avenues, and those running east and west, from First avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hoadley's Addition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission Dolores; Western Addition, west of Larkin; San Miguel Ranch, southwest and near the Mission Dolores; Bernal Heights (B. H.), south of Twenty-sixth Street, between San Bruno and San José Roads; and University Mound Tract (U. M.
